Security and Refund Policy

Payments with credit cards are made by forwarding to the site of electronic payment system - ChronoPay (www.chronopay.com). In ChronoPay system payments security is provided by the SSL Protocol to transmit confidential information from client to ChronoPay system server for further processing. Further information transmission is done via private bank networks of highest protection levels. Confidential data of client's card (details, credentials etc.) are collected and processed in the processing centre. Thus, we cannot get personal and bank data of a client including information about his/her purchases in other on-line shops.

If payment is made by a credit card, refund is made to the same card.
